Artificial Intelligence and Data Science undergraduate (CGPA 8.85/10) with hands-on experience in Python, SQL, machine learning, and full-stack development through academic projects. Built AI solutions involving genomic data analysis, NLP-to-SQL, and reinforcement learning, with experience in data preprocessing, model training, UI/UX, and frontend development.

EDUCATION

B.E. Artificial Intelligence & Data Science - K S School of Engineering and Management (VTU)

Expected 2027

CGPA: 8.85 / 10

Class XII - SDM PU College

Percentage: 93%

Class X (ICSE) - Guardian School

Percentage: 93.5%

TECHNICAL SKILLS

Programming: Python,

AI & ML: Machine Learning, Deep Learning, CNN, LSTM, Data Analytics, Model Training

Databases: SQL, SQLite, DBMS, RDBMS, NoSQL

Web: React, Tailwind CSS, Firebase Authentication, Frontend Development

Tools: Git, GitHub, Power BI, FastAPI, Flask, Gemini API

PROJECTS

GenomeAI - AI-Based DNA Disease Prediction System

Ongoing

- Built a genomic analysis pipeline using ClinVar and NCBI datasets for DNA-based disease prediction.
- Trained CNN and LSTM models on processed DNA sequences for classification.
- Scoped future modules for Explainable AI (XAI) and clinical reporting, planned but not yet implemented.

AI-Powered Reinforcement Learning Trading Agent

- Developed an AI-based trading platform that applies reinforcement learning to optimize stock trading strategies.
- Designed a responsive dashboard for portfolio tracking, market visualization, and trading performance analysis.
- Utilized Python, React, and machine learning techniques to integrate AI-driven decision-making with an intuitive trading platform.

Natural Language to SQL Query Assistant

- Developed an AI-powered application that converts natural language queries into SQL statements, enabling users to interact with databases without SQL expertise.
- Developed a responsive web interface with secure user authentication for seamless query execution.
- Utilized Python, React, SQLite, and the Gemini API to integrate natural language processing with database operations.

EXPERIENCE

- Getting Started with Artificial Intelligence - IBM SkillsBuild
- What is Data Science? - IBM
- Full Stack Python - Spidervella Technologies
- Core Python - Spidervella Technologies
- Participant, IndiaAI Ideathon
- Participant, National Level Hire-4-Thon
